Subject: application 2015/3605/P

Dear Mr McDougall,

UNDERGROUND HOTEL APPLICATION 2015/3605/P

Six reasons why the application must be refused.

- 1) The 2-3 years of constant noise, disruption and disturbance while the works are carried out.
- 2) The huge increase in noise – already a problem – from the ventilation system that would be needed.
- 3) The huge increase in air pollution from the above.
- 4) The substantial increase in noise and pollution caused by greater traffic of motor vehicles, day and night.
- 5) The inevitable major shortage of parking spaces both for local residents (who already do not have enough) as well as for those who currently use the parking garage, and future drivers needing space.
- 6) The general increase of health hazards, and threats to personal safety, caused by such a major increase of population in the area.

The application deserves to be refused.

Marcel Berlins,

83 Bedford Court Mansions,

Bedford Avenue,

Lomndon WC1B 3AE.
