2015/3904/P	Muriel Hall	Flat 4 5 Glenmore Road London NW3 4BY	12/08/2015 11:59:19	COMMNT	I fully support the proposal, initiated because we need to remove a diseased hedge with roots underneath old cracked concrete. The improvement will be practical as well as cosmetic, as the paving stones on shingle will improve the drainage. The tiled path will be a close approximation to the originals in this road, and similar to the houses on either side.
