2015/4030/P	Mrs Philippa Huston	17 Greville Place London NW65JE NW65JE	11/08/2015 18:43:31	COMMNT	<p>We live at 17, Greville Place with the Mortimer Estate overlooking our property from the back. We are extremely concerned about the prospect of a colour render since this will present us with a vast white wall instead of the 'period brick work' of present. This would dramatically change the back view of our entire terrace on Greville Place.</p> <p>I would like to know much more about your proposals and exactly what the proposed work will look like.</p> <p>Regards Philippa Huston</p>
2015/4030/P	Mr Patrick Roche	7 Cheshunt House Mortimer Crescent London NW6 5UR	12/08/2015 12:32:56	OBJ	<p>Dear Sir/Madam,</p> <p>I strongly object to this proposal on the grounds that the Esthetics of the blocks and hence the Estate will be detrimentally altered.</p> <p>I consider the look of the blocks to be quite aesthetically pleasing and of their time (somewhat akin to the various Peabody estates dotted around London) such that to render their Brick work in anyway would destroy this look and hence the overall look of the estate.</p> <p>I understand that the estate was built in 1953 i.e. only 8 years after World War II and therefore, must have been one of the first council estates built after the war such they represent a poignant piece of Social History which, if the proposed works were to go through would destroy.</p> <p>I urge you to reconsider the merits of this scheme in light of what I've just said.</p> <p>Regards,</p> <p>Mr P.Roche</p>
2015/4030/P	David Leigh	19 Greville Place	12/08/2015 08:48:12	OBJ	<p>Whilst we have been provided with insufficient information properly to evaluate the impact of this proposal, we believe that it will severely adversely affect the view from the back of our property and further understand that there is a very high risk of discolouring which will create an unattractive image to what is currently a relatively attractive estate. At the very least, we would ask that further information is provided and more time is given to evaluate how to avoid impacting the view of the estate.</p>
