Your comments on the planning application

To the attention of the case officer Mr. David Peres Da Costa

Dear Mr. D.Peres Da Costa

We strongly oppose to the proposed development on the following grounds:

- 1) Unacceptable acoustic pollution - like in previous application, the new one suggests installation of condensers, ventilators and other various mechanical plants

Planning Application Details

just opposite 1 Firecrest Drive facing directly at our bedroom! We understand that the proposed set of equipment is to support both the swimming pool and the heating system, potentially we are looking at noise pollution through the whole year on a daily basis! The whole idea of us moving to Firecrest Drive was the unique quiet environment, when we open our bedroom windows the only thing we can hear is birds singing! The aquatic tests described in the Noise Assessment report was yet again performed benchmarking Branch Hill (with such a high noise pollution) and not Firecrest Drive, the quietest setting! I don't understand why after all our objections the Noise Assessment has not been done on Firecrest Drive. What is the point of that assessment!

2)Basement excavation is a serious concern for us (as per our previous objection). Our property sits right below 17th Branch Hill and we have a high chance to be affected.

3)Environment and disruption in the area

Sadly number of trees are going to be impacted, but the disturbing fact of 91 weeks of work (including Saturdays) in our residential area is disheartening. My work requires long hours in the office, I get up very early every day. My partner works from home. We are potentially facing 2 years of hell!

Please take into consideration all our concerns, unique environmental footprint of Firecrest and all the surroundings and refuse the application.
