> I have e mailed individually all the listed below re 'my personal concerns about the projected work and ask them to reply to me with their thoughts as to the governments request to local authorities to save energy emissions versus heritage and conservation and what they see as reasonable guideline for compromise.I hope you can all do the same.
> **Also, I have found out from a very reliable source today in the building trade that has done this work privately,that they have experienced problems, that if a tile cracks or falls off, birds target the area pecking for insulation to make there nests.**I'm guessing Camden will argue its nature and their way of preserving the animal kingdom.
> In closing,I trust you will all have received notification and works number which we should reply to with any of your thoughts within 21 days.
