Planning Department

**Re: PA's 2016/4053P & 4157P Pilgrims Lane, Hampstead**

I have just seen the above PA's, and am writing to urge Camden to reject these out of hand. Considering the remarkable similarity of these to PA2012/5825/P, which has been refused by Camden at DCC, and is the subject of an ongoing Appeal, it is tempting to regard these latest PA's as frivolous and a waste of public money.

DCC rejected the original because it infringed DP23 & 27. The above are no different, and the same arguments apply. It is also noted that part of the new PA is made under permitted Development. This must also be rigorously refused. CPG4 removes PD for 'Engineering Operations'. This current PA unequivocally falls in that category. There is no scope for allowing any development at this site under PD.

I look forward to receiving your confirmation that Camden will not tolerate such abuse of the Planning system, and the waste of time involved for all and sundry.

Yours faithfully,

Jo Konrad
