Subject: PA2016/4057/P Pilgrims Lane

Dear all,

I was astonished to receive a notice that a further application had been made covering 8/10 Pilgrim's Lane. The matter is under appeal, but should of course have been rejected some time ago. Continuing with such an inappropriate and damaging submission is of no benefit to the community and prevents Council officers from concentrating on issues which might be of general benefit.

I have no knowledge whatsoever of the submitting firm, but hope you will bin - as would be appropriate - any suggestion that the matter could be considered under PD. The site is narrow and congested and the water table high. Camden Council would be brought into ridicule were such a letter circulated, as would inevitably be the case.

DP 23 and 27 would be breached in any case. Please reject forthwith. The scheme is entirely devoid of merit.

Sincerely
Joseph Rykwert CBE
