Your comments on the planning application

Whilst generally supportive of the application, the design and materials, we have 3 comments on the proposals:

1 we are concerned about the potential negative impact the scale of the extensions will have on our property. The additional bedroom in particular will result in a loss of sunlight and restrictions in daylight to most of our living areas of our house, making it significantly darker. Windows directly impacted include living room, kitchen, central stair, two bathrooms

Planning Application Details

2 we are concerned by the new balcony created with the new bedroom extension and how this will overlook our garden and directly and negatively impact our privacy. Whilst an existing large balcony exists, its rarely used. The new bedroom with direct access to the smaller balcony will significantly increase the overlooking aspect

3. We have a daughter 18 months who sleeps every day between 10.30am and 1.30pm. whilst we understand the noise, vibration and disruption impacts the proposed extensions will create, we request that the contractor be prohibited from noisy works during the hours identified above so that our daughter can get her sleep

Whilst writing, we wish to inform the that our son may be scheduled for a heart transplant operation in the near future. If that happened, he would be home, after surgery, recuperating. If that were to happen whilst construction is ongoing, we would request to extend the noisy hour restrictions to facilitate his recovery. We have no planned dates (these matters can't be scheduled. The restrictions we would look for in addition to point 3 above would be no noisy works before 8.30am nor after 5.30pm daily
