Your comments I am the owner of this property

I object strongly to any more development in Kidderpore Avenue - This building is absolutely opposite my flat and right opposite my bedroom windows.

I strongly object to any basement excavation. I do not think basements add to ecological development in NW3.

Residents of Kidderpore Avenue are already suffering from the development on the other side of Kidderpore Avenue - the noise is dreadful, and the heavy traffic is very disruptive. It is a narrow road and any more traffic in it will be disastrous.

If - unfortunately planning permission is

granted, I would ask that Parking Facilities Please continue on extra sheets if you wish are provided on site for the workman's vehicles. At present the walkers on the opposite site take all the available space
