Hi David,

We live at flat 2, 89 Priory Road. We made an objection to our neighbours proposal at flat 1, 89 priory Road. I understand that they have revised their plans. We have seen these revised plans and still have 2 of the same concerns:

The extension length is too long it will still block our light if built. We believe it doesn't adhere to the 45 degree rule.

There is still a considerable amount of glass being used at the rear of the extension it looks to be approximately three times the current amount at their existing bedroom. Whilst we would have less of an issue if this was a living or kitchen area we find the fact it is a bedroom will effect our enjoyment of the communal garden.

We are out of the country now until 1st September so didn't want to miss a consultation period.

Thanks

Laura & Richard Dweck
