**Cc:** Tim Owens  
**Subject:** Planning Applications 2015/4179/P, 2015/4157/P and 2015/4053/P

Dear Ms. English,

I am writing in respect of applications 2015/4179/P, 2015/4157/P and 2015/4053/P made recently for 8 Pilgrim's Lane. I have been away for a number of weeks and have not yet had time to fully review these applications. I will be responding in detail in due course.

I would however like to make a number of observations:

Firstly, I have not received any communication from Camden regarding these applications. I presume there will be a consultation process, especially given the large amount of objections to the prevailing application.

Secondly, I would like to stress that I strongly feel that the existing appeal should be withdrawn before Camden wastes any further time reviewing these new applications.

Thirdly, I would also like to reiterate my concerns about the insufficiency of the information provided to support the current application (that is the subject of the prevailing appeal). I do not believe these new applications should be reviewed until they satisfy the information criteria stipulated under Camden's basement guidance.

Lastly, I believe the applicant is trying to avail of permitted development rules in national planning legislation. As a designated conservation area, I do not believe such rules apply.

Please advise on the status of these applications and your comments on my observations.

I look forward to hearing from you.

Best wishes

Tim Owens
