Informative(s):

1 Reasons for granting permission:

The proposed amendment, namely the removal of a window at second floor level serving the staircase is considered to be acceptable. This change is considered to be of an appropriate unobtrusive design that would relate sympathetically to the host building and of a minor nature that would not significantly alter the appearance of the building or character of the conservation area. The council's conservation team has been consulted and commented that the removal of the window is a non-material amendment and as such will not detract from the character and appearance of the Conservation Area in any way. Due to its minor nature, the proposed amendment would not significantly harm the amenity of any adjoining residential occupiers in terms of loss of light, outlook or privacy.

The full impact of the scheme has already been assessed by virtue of the previous approval granted on 20 September 2013 under reference 2012/2133/P. In the context of the permitted scheme, it is considered that the amendment would not have any material effect on the approved development in terms of appearance and neighbour impact. It is considered that the changes are relatively minor in the context of the approved scheme and can therefore be regarded as a non-material variation to the approved scheme

2 You are advised that this decision relates only to the changes highlighted in the description and shall only be read in the context of the substantive permission (2012/2133/P) allowed on appeal (ref APP/X5210/A/13/2193888) dated 20th September 2013, and is bound by all the conditions attached to that permission.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.

Yours faithfully

Ed Watson
Director of Culture & Environment
