I am against the works for a place of worship as we already struggle with parking outside our homes and yet we pay for permits. We are already angry that people who use the market can park there for free on a weekends as it is. Opening a place of worship will take up more car parking spaces.

I do not want gatherings of loads of people at all times day and night as this will disturb the peace on the estate. It has already been disturbing me for the last few years with the continuous opening and closing of shutters at all hours.

Myself and the neighbours do not see an estate, our estate is a suitable place to go and worship. It would be a nice idea if the shops are free to maybe be a youth club for the children on the estate or a place for the many elderly people in the blocks to get together

thank you
