2015/2802/P	Joanne Scott	Ground Floor Flat 101 Fordwych Road London NW2 3TL	21/08/2015 13:05:50	OBJ	<p>I am objecting to this 1 story basement extension. The basement impact survey has not taken account the ongoing flooding of the cellars on Fordwych Road. The Mill Lane Apartments has not helped this issue with their large underground basement, which I am sure has added to the problem. I am concerned that not enough research has been done into basement conversions in the area, and no residents were consulted by the company that did the basement impact survey. Also, I found out that the developers started the basement conversion without planning permission, which is not acceptable.</p> <p>Please could they repair the pavement on Fordwych Road, which they have damaged.</p> <p>Best wishes Joanne</p>
