The application does not specify what type of place of worship this will be, or what the impact will be on the local community. This is a quiet, residential area with a variety of people of different religious backgrounds. I know a lot of people in the Fordcombe block are worried. |

As it brings people together for a good cause.   |

| 2015/4077/P     | Margaret Marr    | 84 Southfleet Malden Road<br>London<br>NW5 4DE         | 22/08/2015 13:29:57 | OBJLETTE<br>R  | I object to the application, there are already places of worship in the area, too many of our local shops are becoming niche faith only properties & should remain for use by the whole community. It is a residential area & should benefit the wider community. There are already parking issues in Malden Road from the Internet cafe based near St Silas & a congregation of people milling around underneath blocks of flats. I have no objection to a place of worship but not underneath where people reside. A better place must be found that does not affect existing tenants and benefits all concerned. |

It was a place of worship as well as studying the religion for both adults and children. It's very important we have this locally as we do not have anything else near by. Having the mosque reopened would be of great benefit to the local Muslim community   |
