Planning application number..... 2015/3683/P.....

Planning application address..... 14 ROSEBERY AVE LONDON EC1R 4TD.....

I support the application (please state reasons below)

I object to the application (please state reasons below)

Your comments

The "East Elevation" mentioned in the application is in fact at first-floor level from the street and back courtyard (see photo) adjacent to multiple properties above, including the five-storey Rosebery Ave flats to right of photo and our one-year old new-build with four stories from where photo taken. Please note the existing eight a/c condenser units already installed by businesses on the ground and first floors (see green arrows) On warm days with these running, echoing against the enclosed high courtyard, the decibel level is high for all residences on the courtyard on their balconies & within. Please factor in the enclosed space, the echo factor and the noise pollution affecting this mainly residential neighbourhood adjoining Warner Yard. We are in the majority.

Please continue on extra sheets if you wish
