2015/3052/P	Harry Mount	62a Caversham Rd	27/08/2015 10:58:25	COMMNT	<p>I fundamentally object to this application. Caversham Road was once a quiet place. It is now noisy throughout the day because of the lorries at the two building supplies outlets.</p> <p>This year, my life has been blighted by the noise of two extensions, lasting through spring, summer and autumn.</p> <p>A massive redevelopment like this is the last straw. I will fight it at every cost.</p> <p>Many thanks</p> <p>Harry Mount</p> <p>London NW5 2DS</p>
2015/3052/P	Joanna Chow	25B Caversham Rd Kentish Town NW5 2DT NW5 2DT NW5 2DT	27/08/2015 13:01:15	COMNOT	<p>The proposed new residential development is situated in a Conservation area. Therefore, the materials used should be in line with the rest of the Victorian buildings include the choice of colours of bricks</p> <p>The design of the "white" building would be quite out of the existing Victorian character and the planned "white bricks" and the windows in that part of the building would not respect the Victorian architecture. In my view that the proposed building plan hasn't fully demonstrated its intention to protect the historical heritage in the area. It is also suggested to ensure that the height of the proposed buildings would not be taller than the existing Victorian house next door i.e. 38-40 Caversham Rd.</p>
