Subject: Registering an Objection to the Proposed External Wall Insulation.

Hello,

My name is Alan Donohoe and I am the leaseholder of 15 Dobson Close, Swiss Cottage.

I have attended the leaseholder meeting a few weeks ago about the proposed External Wall Insulation works ref: [2015/4041/P](#)

I have firstly concerned that the cost to benefit of the proposed work is massively flawed.

To spend a large amount of money to slightly raise the thermal insulation of the property does not seem justified.

Also, I am worried that the particular aesthetic character of the block and estate will be lost forever and they will look like a generic new build, which I would consider unethical for the people that live in the area to live with and view every day.

I am concerned by the loss of daylight into my property and the adverse effect that will have on the residents wellbeing.

For this reasons I am strongly opposed to these works.

If there's anywhere else I need to register my opinions please let me know.

Thank you,

Alan Donohoe.
