Planning Application 2015/4179/P

10 Pilgrim's Lane

NW3 1SL

Attention:

Mrs Rachel English,

Senior Planning Officer

Camden

Dear Rachel,

Following my 6 objections on the above applications sent to your attention earlier this month, I would like to add a seventh reason for objections to the application 2015/4179/P.

The applicant proposes a significant number of additional structures (e.g. roof extension,...) and the removal of walls. The numerous proposed alterations may have an impact on the crucially important columns that support the living room of 10 Pilgrim's Lane due to the very sensitive flying freehold structure.

The applicant has failed to provide any information on the changes in load bearing and other structural information and analysis. This could impact the stability of the flying freehold and hence violate DP 27.

This is another reason for rejection of this application.

Regards,

Oliver Froment and family
