Proposal Excavation to create two storey basement development to provide education and training floorspace underneath East Terrace, replacement lighting in lightwells and installation of roof lights, installation of new southern entrance door, removal of external northern stairs to create fire escape, provision of 10x cycle parking spaces and 2 disabled car parking spaces, and associated landscaping. (Application 3)

Objection Yes

Observations The terrace rooflight:
We feel that if the glazing is to be as flat and extensive as is proposed then it needs to be sunk much deeper down into the well so as to be less visible. Another completely different approach would be to see this as the possibility for a gothic inspired glass sculpture - somewhat in the style of Pei's Louvre glass pyramid but perhaps busier and more vertical.
