#### Informative(s):

- 1 Reasons for granting permission.

The replacement of the single glazed windows and door with the proposed timber framed double glazed windows and door to front, side and rear elevations will not affect the appearance and character of the host building, the conservation area and the streetscapes. The windows, in design, are like for like.

The development will not affect the adjoining neighbours' amenity in terms of loss of light, outlook or privacy and will enhance the quality of life of anyone leaving in the property as well as being more energy efficient.

The site's planning and appeal history has been taken into account when coming to this decision. No comment was received following statutory consultations.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP 25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan March 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.
