You say that only buildings of the same  character as the 1840 originals are permitted - BUT - what about the monstrosity being 1 Albert  Terrace. Has anyone from the Council seen what has been built and what a total eyesore it is? We still oppose the loss of amenity to the residents of Albert Terrace Mews and the loss of yet more garden. You say that only buildings of the same character as the 1840 originals are permitted - BUT - what about the monstrosity being 1 Albert Terrace. Has anyone from the Council seen what has been built and what a total eyesore it is?  Please organise a site visit so that the Council is in full possession of the facts and the likely outcome of yet more building.  Yours sincerely,  Leonard & Pamela Marks | ?        |
