Good Morning

I would like to formally lodge an objection to the proposed planning application for an air conditioning (AC) unit to be installed at 14, Rosebery Avenue, London EC1. This property is directly below my flat and I strongly oppose to having this AC unit installed as it will be directly below my bedroom window at the front of the property or below my lounge window at the back (subject to where the proposal for installation is). This is not for aesthetic reasons but for my health and safety.

I am an NHS employee who works varied shift patterns and also require rest and do not feel the above, if approved will contribute to this. In addition, I am also under the impression this building is listed therefore would be interested to know if this has also been considered.

I look forward to hearing your response.  
Kind Regards
