You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

*E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.*

I have 2 very overgrown trees in my garden that need pruning

1. A Magnolia Tree

2 A Eucalyptus Tree

The Magonolia tree branches are now only 2 meters from the house although the tree is 9 meters from the house, so its huge, It is a magnificent tree that is in need of a good prune

The Eucalytpus tree is is as tall at the house, so maybe 45ft. It is now beginning to lean towards the house, so again it just needs a good prune

## 8. Trees - Additional Information
