2015/3226/P	Mrs J D A Rees	13 Daleham Gardens London NW3 5BY	07/09/2015 12:13:09	OBJLETTE R	<p>I am an 89-year old widow in ill-health living immediately next door (number 13). The works for which approval is sought adjoin my kitchen and living room on the ground floor. I am obviously concerned at the potential for noise and disruption caused by the work being undertaken. I am very immobile and therefore unable to leave the house or move to the upper parts.</p> <p>With regard to the work I am concerned that the permitted working hours should be restricted to, say, 9am to 5pm so that I can get proper rest. Dust and dirt should be kept to a minimum and cleared from the site regularly. Also if I have to leave the house in an emergency (by taxi or ambulance) or have emergency attendance from my doctor it is important that the builders should not be permitted to park outside my house.</p>
