8 September 2015

Dear Sir/Madam

DECISION

Town and Country Planning Act 1990 (as amended)

Full Planning Permission Granted

Address:
88 Tottenham Court Road
London
W1T 4TH

Proposal:
External alterations including replacement of existing air conditioning units to the rear.
Drawing Nos: 22298/PNA1, 50484500-AR01-EL-1014, 50484500-AREX-EL-0011,
50484500-AR01-SP-0021, Design & Access Street.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as

possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans 22298/PNA1, 50484500-AR01-EL-1014, 50484500-AREX-EL-0011, 50484500-AR01-SP-0021, Design & Access Street.

Reason: For the avoidance of doubt and in the interest of proper planning.

- 4 Noise levels at a point 1 metre external to sensitive facades shall be at least 5dB(A) less than the existing background measurement (LA90), expressed in dB(A) when all plant/equipment (or any part of it) is in operation unless the plant/equipment hereby permitted will have a noise that has a distinguishable, discrete continuous note (whine, hiss, screech, hum) and/or if there are distinct impulses (bangs, clicks, clatters, thumps), then the noise levels from that piece of plant/equipment at any sensitive façade shall be at least 10dB(A) below the LA90, expressed in dB(A).

Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policy CS5 of the London Borough of Camden Local Development Framework Core Strategy and policies DP26 and DP28 of the London Borough of Camden Local Development Framework Development Policies.

Informative(s):

- 1 Reasons for granting permission.

The proposed condenser units would replace the existing plant equipment fixed to the rear elevation of the site. Located at first floor level, the proposed units would be barely visible from the surrounding streets and are considered not to have a harmful impact on the appearance of the host site.

An acoustic report has been submitted by the applicant and demonstrates that the plant would not exceed the Council's noise thresholds.

Given the location of the equipment, the proposal is considered not to have a significant impact to adjoining properties in terms of light, outlook or privacy.

No objections were received following statutory consultation. The sites planning history and relevant appeal decisions were taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 56 -66 and 126-141 of the National Planning Policy Framework.

- 2 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Compliance and Enforcement team [Regulatory Services], Camden Town Hall, Argyle Street, WC1H 8EQ (Tel. No. 020 7974 4444 or on the website <http://www.camden.gov.uk/ccm/content/contacts/council-contacts/environment/contact-the-environmental-health-team.en> or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.
- 3 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts which cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Argyle Street WC1H 8EQ, (tel: 020-7974 6941).

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
