RE: Planning application ref: 2015/4562/P - Land at Hawley Wharf

Dear Mr Fowler

I am writing in as a long standing resident of Camden of over 20 years to object to this planning application.

There is much to dislike about the proposal. I will limit my comments to just one: regarding the plan to put up buildings of up to nine storeys. Originally I thought this must be a mistake. Most buildings near by are three storeys. I think four storeys should be the maximum allowed by the Council. Five would be disappointing, but nine is off the scale of outrageous and disastrous. While making huge profits for the foreign billionaire property developer, it would wreck the character and heritage of Camden. It would also take natural light and adversely affect the privacy of residents. This cannot be allowed.

Yours sincerely

Edward Parker
