To whom it may concern,

Please save and stop Camden from being destroyed.

Camden Town is a tourist attraction part of our heritage. The thought of not being able to take my little girl there one day horrifies me.

For once stop thinking about your pockets and think about society. If Camden lock and markets disappear then all the restaurants and bar in and around the surrounding areas will be affected. Please don't do it. Leave Camden as it is.

Many thanks and kind regards.
