

## **Former Planning Application No. 2014/5082/INVALID**

### **Description of Development:**

Replacement of 5No. front timber windows to similar type double glazed timber windows.

### **Site Address:**

119 Arlington Road, Camden, London NW1 7ET

## **Method Statement**

### **For Replacement of Box Sash Windows**

- To prepare areas for work to commence.
- All work will be carried out from the inside.
- To remove existing staff, parting beads, all internal architraves and liners.
- To remove sliding sashes and carefully cut out the box frame and weights.
- To remove all loose mortar and clean brick apertures.
- To make good external stone sills where required and re-point any loose brickwork using traditional lime mortar.
- To install new purpose made replacement windows made to the separately shown Design & Access Statement and Drawing No. 1145
- Windows to be secured to brickwork using suitable frame anchors.
- To install new internal liners and architraves to match existing.
- To point up outside between frame and brick work using traditional lime mortar.
- To clean installation and remove all job related materials from site.
