2015/4564/P	Patricia Langley	Flat 1 210 Camden Road London NW1 9HG	10/09/2015 10:19:48	OBJ	1. The erection of a 3-storey dwelling will reduce the light levels in my flat because the property backs on to our building. This will affect not only the quality of light, but my quality of life. 2. Given that Camden Mews is in a conservation area, a three-storey dwelling is an overdevelopment in a conservation area. 3. I am concerned about the structural damage this could cause to our dwelling due to the close proximity. 4. I am concerned that the existing building is to be demolished with the resultant noise, dust and disruption.
