Proposal	Installation of rear dormer extension and associated roof terrace.
Objection	Yes
Comment	Yes
Observations	<p>OBJECT</p> <p>The proposal is not suitable because the placing of the window shows no consideration of its relationship with the fenestration of the rear facade, and the material proposed for the window frame itself, grey powder-coated aluminium, is also unsuitable. In addition, the terrace is too deep and extends almost to the edge of the roof, which is also unsympathetic to the building's style, and a feature to which we always object.</p> <p>Beatrice Wober for BCAAC</p>
