Your comments on the planning application: The proposed construction is unnecessary as it is effectively breaking down and rebuilding essentially the same thing over again but unnecessarily bigger.

There are already 4-5 flats in the building and existing parking spaces in the building so there is no clear benefit. Also the proposed construction appears to only be able to house fewer tenants in general which doesn't contribute positively to the general shortage of housing in the area.

However, the construction will yield a substantial amount of noise, put traffic along an important residential road to a standstill (so no one can go to work), impact the walkway and likely lead to the destruction of the associated gardens currently attached to the flat. It is also likely to encroach on the privacy of neighbours and lead to a loss of light.

There is really no need for this. A better, less impactful solution to the current tenants and neighbours, is simply trying to maintain properly maintain the existing building.
