Dear Kate Phillips

Mr & Mrs Badoorkhan wish to object to a staircase being installed into their garden. They have occupied the ground floor and basement of the above property which is self-contained from the upper parts since the 1950's. They have always had exclusive use of the garden and do not wish to share the garden. They also object to a staircase being fitted which would block light, create additional noise and ruin the appearance of the garden. I would be grateful if you would consider their comments.

Kind regards

Sandra Cobbing
