2015/4386/P	Janet Langdon	43 Fairfax Place London NW6 4EJ	12/09/2015 18:45:19	COMNOT	<p>I am not a consultee nor am I personally affected by this planning application. However, I have lived in Fairfax Place since 1968 and was Chairman of the Fairfax Place Residents Association for over 10 years.</p> <p>Since 1968, there have been numerous planning applications, both in Fairfax Place and neighbouring roads. On some occasions I have made comment to the Council when I thought that either the proposal should not be allowed to go ahead or needed some adjustment. The current application is by far the most unacceptable one I have seen. It is horrendous for the houses in Fairfax Place, that back on to the dwelling.</p> <p>Mr Shah has said that there will be very few patients for the dental practise - this could well change and also is likely to change if the property is sold. Also by getting D1 planning approval, there are a whole range of uses which could go on in the building.</p> <p>In 1975, we had the most terrible floods in the Fairfax Place area and every single basement was flooded - hence it would seem very undesirable to have any new basements.</p> <p>I am also putting these comments on Planning Application 2015/4481/P as the two applications are interlinked.</p>
