Informatives:

- 1 Reasons for granting consent

The proposed externally illuminated fascia and projecting signs are considered acceptable in terms of size, design, method of illumination and location. The adverts respect the architectural features of the host building. They would not significantly harm the amenity of any adjoining residential occupiers, in terms of light spill, due to their size, location and low level of illumination.

The signs are not considered harmful to the character or appearance of the host building, street scene or the Belsize Park Conservation Area because they are not unduly dominant in the streetscene nor would they be harmful to either pedestrians or vehicular safety.

The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and

Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan March 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 55-67 and 126-141 of the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
