2015/4189/P	Stephane Allender	138 Grafton Road nw5 4ba	14/09/2015 11:02:29	OBJ	Dear Sir, Madam.
-------------	-------------------	-----------------------------	---------------------	-----	------------------

We strongly oppose this project as we feel it is not in line with the rest of the street.  
We think that no buildings in this street should be higher than its neighbour at 126 Grafton Road. There is a large majority of 2 or 3 storey houses in this street and it is mainly a residential area.

We are also very concerned with the reduction of light in our back garden by being surrounded with too many tall structures which is already a problem with Spring house at the back of our property.

Parking of cars is also becoming a major issue after 11am due the increasing amount of offices in our area.

We would not oppose to the erection of nothing more than a 4 storey building. Because we want to see this area enjoying a good local life, we also object to office use and would favour residential construction.

Regards

Stephane Allender
