Informative(s):

- 1 Reasons for granting permission:

The proposed replacement windows and doors are considered acceptable in terms of materials and design. The windows and doors are sympathetic to the host building matching the existing fenestration details and the timber frames are also acceptable.

There are no concerns regarding impact on residential amenity as the replacement windows and doors are to fit within the existing frames, with the exception of the rear door at ground level which shall face to the garden and therefore no overlooking shall occur.

No objections have been received in relation to the proposal. The site history and appeals have been taken into account in making this decision. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2015 consolidated with amendments since 2011; and paragraphs 14, 17, and 56 -66 and 126-141 of the National Planning Policy Framework.
