Sept 1st 2015

U. 2015/455/L Y 2015/4485/P
Grove Lodge - Admirals Walk.

I expect to the above 2 proposals to these
reasons.

1. It will change the appearance of a historic building in an area of architectural interest. It is a listed building.
2. The underground expansion/extension will put at risk subsidence problems.

3. It will cause a high risk area water damage to neighboring property.
4. It will permanently block a public footpath that has been there for generations.
5. There is a survey for the damage excavations can cause in this area which is to be heard in 2016. This work will not begin until 2017. No plans should not be passed before this date. regards.
