"   2014/4540/PRE   N.W.1 9HF
DATE 16/9/2015   ████████████

I'm a tenant at the above address (Sheltered flats not a care home) I'm 72 soon 73 this project when finished may be everything I desire a But this may take 2 or 3 year, maybe more This period may well be the last active years of my life My time on this earth is contracting fast. I fear it may not be pleasant, it might be hell on earth to endure, I didn't think in my wildly nightmares I would be faced with this I've been told I could get a transfer to some other estate, and I know that the care & supports people are sincere in their wishes to do best for us, but how do a elderly person fare in strange surroundings, where cold, cut off from everthing familiar is absent. where the known face, voice street, social centre and shop is gone. The work will cause disruption, noise hold-ups, disputes between tenants, traffic congestion and the inevitable cock-ups that will ensue.

I'm worried as to what kind of folk will inhabit the houses that are proposed, will they be late night party bright sparks?

——→ OVERLEAF

There will be a reduction from 36 flats to 24 (⅓).

We'll need two washing machines and Dryers

If there going to be flats with the communal lounge, it's needs to be properly soundproofed (that is the ceiling)

I got worries about impact of on the traffic situation

Will car parking needs for visitors and deliveries, we're going to lose the car parking space we presently got, be adequate.

At present we've got one communal toilet, that has to do for guestroom visitors, residents enjoying the lounge, tradespeople, cleaner and whatnots, plus bonkers (carers, nurses, paramedics)

Will the five "townhouses" be fully sealed off from our garden (greenery) so we can enjoy it in the summer

yours faithfully
