2015/4681/P	lance robins	65 westfield kidderpore avenue	22/09/2015 06:59:26	OBJ	I would like to object in the strongest possible terms to this application.As a resident of this development i had to endure weeks of hell due to a redevelopment of this residents roof garden at a time when i was undergoing cancer treatment.Day after day pneumatic drills were used making life a living hell Now fresh works are proposed by the applicant. This is not benefiting any other person in the community but will bring misery to surrounding neighbours forcing them to vacate their flats due to the noise & disturbance. This resident has continuously carried out changes to this property without care & consideration for their neighbours. Surely it is time for the council to stand up for local residents & turn down this latest application
