Informative(s):

- 1 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts which cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Compliance and Enforcement team [Regulatory Services], Camden Town Hall, Argyle Street, WC1H 8EQ (Tel. No. 020 7974 4444 or on the website <http://www.camden.gov.uk/ccm/content/contacts/council-contacts/environment/contact-the-environmental-health-team.en> or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.
- 3 Reasons for granting permission.

Whilst single glazed windows often contribute positively to the character of conservation areas, the double glazed units proposed would have a similar external appearance to the existing timber windows and so are deemed acceptable. The proposed sash and casement windows to the front and rear, would all be constructed from timber, and so are appropriate in terms of material. They also benefit from being of the same configuration as the existing windows and positioned in the same openings. The frames and glazing bars are the same widths as existing, and the proposed windows would have the same relationship with their reveals and thereby accord with Camden Planning Guidance. As such

the proposal is not considered harmful to the character or appearance of the host building, street scene or the wider Bartholomew Estate Conservation Area because of the traditional design and materials proposed.

The new windows would have no impact on the amenity of adjoining properties as there is no change to the size or position of the window openings.

No objections, and one comment of support have been received prior to making this decision. The sites planning history and relevant appeal decisions were taken into account when coming to this decision.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under section 72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed details are in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4 and 7.6 of the London Plan 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
