Summary of representations

(Officer response(s) in italics)

The owner/occupier of No. 5 Rochester Terrace has objected to the application on the following grounds:

- There should be no disturbance of the roof with a telephone antenna

Officer comment:

The proposed microcell antenna would be sited on the front elevation of the host building to the right hand side of the cambered brick arch above the right hand first floor window. As such, it would not disturb the roof of the host building.

	On balance, it is considered that the proposed works would cause less than substantial harm to the listed building, or to any features of special architectural or historic interest which it possesses.
