*** available in Cedral Click

Woodstains**

Cedral Weatherboard is available in a range of woodstain shades designed to mimic the appearance of a stained natural wood finish and as such, a variation in colour and shade is part of the effect inherent in the material design. The translucent finish will be accentuated by the effects of ambient light and viewing angle.

Cut edges of Cedral Weatherboard woodstain must be sealed with Luko solution

Due to the transparent coating, it is not recommended to install Cedral Weatherboard woodstain colours vertically.

CL102 Pine

CL104 Light Oak

CL105 Dark Oak

** not available in Cedral Click
