Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

Informative(s):

1 Reasons for granting permission

The proposed externally illuminated fascia sign is considered acceptable in terms of size, location and method of illumination as it would not be unduly dominant in the street scene and takes into account the character of the site and surrounding area.

The sign would not significantly harm the amenity of any adjoining residential occupiers in terms of light spill as the external illumination is positioned on the fascia alone. As such, it would not be considered hazardous to vehicular or pedestrian traffic so the proposal raises no public safety concerns.

No objections have been received prior to making this decision and the site's planning history has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 of the London Borough of Camden Local Development Framework Core Strategy and policies DP24 and DP26 of the London Borough of Camden Local

Development Framework Development Policies. The proposed development also accords with policies 7.4 and 7.6 London Plan March 2015, consolidated with alterations since 2011; and paragraphs 14, 17, 55-67 and 126-141 of the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
