

Can I urge you not to grant permission for the rear extension to Flat A, Lancaster Grove. Lancaster Grove is in a designated conservation area and this unsightly extension is wholly out of keeping with the surrounding houses; it takes up most of what should be the garden, reducing green space.

The extension was built without planning approval; their retrospective planning application was refused; and Camden having issued an enforcement notice, they have now appealed against this.

To grant this appeal would set a dangerous precedent and would encourage further, unauthorized, development in the area. I urge you not to grant it.

Toni Huberman
Flat 6, 6 Lancaster Drive
