2015/2534/P	Gill Denniss	Flat 2 6 Lancaster Drive London NW3 4HA	06/10/2015 08:43:12 INT		<p>This will be the third time I have lodged an appeal against Mr Silver's application for work on an extension and basement which he erected without planning permission and which should have been removed by last April.</p> <p>This latest application looks to me like stalling tactics and the minor changes proposed are insignificant and add nothing to enhance this monstrosity which is a blot on the landscape. It seriously impacts on the neighbouring houses and sets a precedent for other such buildings to go up in this beautiful area of London. It also encroaches on a very large area of garden which is a very precious green space and invaluable to plant and animal life.</p> <p>I STRONGLY OBJECT</p>
