2015/3938/P	Jonathan Moshi	5 Dorchester Gardens NW11 6BP	07/10/2015 19:12:20	SUPC	Dear Camden I am the long leaseholder in the residential flat above this premise. The flue application should be granted permission ASAP, as the existing one that does not meet government guidelines as it does not clear roof and causes problems. It has not been granted planning permission. The noise levels from the proposed external A/C unit /2 freezer & fridge unit, should be no more on a combined basis than that generated by the single existing unit used by the previous Pizza Amante tenant. Best regards
