I would like to know more details and I think it is in the residents interest to know: Eg, if we are losing estate parking facilities. I think the estate will lose key facilities and this requires clarification.</p> <p>The proposal of surface mounted pipe work is against the grade 2 star listing of the estate. Lastly, why does the application appear to be a blanket coverage application for the total buildings on the estate.</p> <p>Some consultation is needed to residents.</p>
