- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans Site location plan; SV.01A; SK (.01, 02, 03); Design & Access Statement.

Reason:

For the avoidance of doubt and in the interest of proper planning.

- 3 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

Informative(s):

- 1 Reasons for granting permission.

The proposed replacement windows are considered acceptable in terms of design and materials. The proposed works involve replacement of existing timber framed windows with timber double glazed, which replicates the existing pattern. Two fixed windows to rear will be replaced with vertical sliding sash windows. The proposal would complement the existing building and meets the requirement set out in CPG1 Design, section 4.7 'new windows should match the originals as closely as possible in terms of type, glazing patterns and proportion' and also 'where timber is the original window material, replacements should also be in timber frames'. Given the proposed windows are replacement, the proposed works are not considered to have any harmful impact on the amenity of adjoining occupiers. Hence, the proposal would respect the character and appearance of host building and conservation area.

No comments have been received from The Hampstead Hill Conservation Area advisory committee and others following statutory consultation. The site's planning and appeal history was taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25, and DP26 of the London Borough of Camden Local Development Framework Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of The London Plan March 2015, consolidated with alterations since 2011; and paragraphs 56-68, and 135 of the National Planning

Policy Framework.
