

Application number is 2015/4774/P Camden Lock Market Planning Application

My name is John Cordara, a trader at Camden Lock market .

I was born in St Pancras, been coming to Camden lock market since i was 8 years old.

after living in New Zealand for 16 years, i learn t to carve the Maori river jade pounamu.

so 11 years ago i started in Camden lock with my collection, all i had was £300 pounds worth of carvings.

in this time ,i gathered a world glass group of clients and have added to my collection.

native American ,Swedish viking ,Saharan tuareg, amber, and a beautiful home grown collection.

plus gems from all over the world, stock holding in camden now is £400,000.

we have clients from every country now .

this is me ,what i do.

change is very difficult, but stagnation worst.

slowing down of new crafts ,Camden lock market is wonderful, it needs to be maintained ,brought in to the future.

the proposal to re create the ,market is a blessing, i often said to my self and many to me, we need to grow redefining his wonderful place. it is a vessel of the past.

for some one to come along purchase and put money plans ,life saving ideas for our future.

please accept this proposal.

i think these ideas are good and very much needed.

Enhance the character of the existing Market

- Rediscover the Market's Arts and Crafts background
- Improve and enhance the public realm by improved permeability and legibility
- Create new accessible routes through the Market

- Reveal the hidden heritage of the site
- Create high quality buildings that compliment the existing use and character
- Make connections to the surrounding markets
- Improve facilities for traders and visitors
- Enhance safety and security around the site

there are at least 12 of my colleagues that agree with me on this matter.

a first class historical market market,needs protection and this is the best way, we support the changes.

Regarding are well being of the traders.when work is being carried out,would it not be a good idea to finish the market opposite and create a space at the front for the existing traders unsentimental lock is ready to move back in to.

a promise to traders who have put there life into Camden lock that there will be a place to return to.a good spot.

and that we are constantly up dated about changes,as we are now..

please accept the proposal of the Camden lock re build.

JOHN CORDARA OF JEWELLERY OF THE EARTH
